Dear Sir,

Please Quote for the following items:-

Sr No.	Description	Unit	Quantity
1	Industrial LED single tube light Luminaire comprising of box type channel, cover with prewired accessories. 16/20W LED tube,in built driver to be directly fitted in the luminare.The housing and outside.having IP 20 protection to be mounted using 2 nos.suitable clamps/conduits,nutbolts,screws,wiring from point to the fitting complete as per instuction	Nos	259
2	Energy efficient, reliable and environment friendly LED based luminaire 42 W ($\pm 5\%$), efficacy more than 105 lm/watt, with pressure die cast aluminium housing in built driver confirming to LM 79/LM80 having IP 65 Protection, supension mounting type to be mounted using suitable G.I. clamps, nut bolts, screws & wiring from junction box to fitting complete as per the specifications.	Nos	340
3	LED highbay light fitting, 80 W ($\pm 5\%$), efficacy more than 105 lm/watt, with pressure die cast aluminium housing in built driver confirming to LM 79/LM80 having IP 65 Protection, suspension mounting type to be mounted using suitable G.I. clamps, nut bolts, screws, etc., wiring from point to the fitting complete as per the specifications.	Nos	110
4	LED highbay light fitting, 150 W ($\pm 5\%$), efficacy more than 105 lm/watt, with pressure die cast aluminium housing in built driver confirming to LM 79/LM80 having IP 65 Protection, suspension mounting typ,e to be mounted using suitable G. I. clamps, nut bolts,screws, etc.,wiring from point to the fitting complete as per the specifications.	Nos	225
5	LED street light fitting in die cast aluminium housing, minimum 90 W ($\pm 5\%$), efficacy more than 105 lm/watt, having IP 65 (Minimum), confirming to LM 79 & LM 80 standard with surge protection 4KV minimum suitable to operate on 230 V 50 cycle A.C.	Nos	126

Thanking You,

Yours Faithfully,
For RADHA ELECTRICALS
